RE: Rocky Flats Remedial Action Property

Dear Greg:

During our last telephone conversation on June 14, you promised to make certain representations to me in writing concerning the source of water to be used for irrigating the referenced property. (Primarily, you agreed not to use water from Pond C-2 on the referenced property.) To date, I have not received this correspondence.

Based upon our conversations regarding the prairie dog problems on this property and the interference with the remedial action as more specifically detailed in the 1989 Remediation Status and Actions for 1990 report that has been provided to me from the Department of Energy, I am enclosing a copy of a letter we recently received from Charles C. McKay. Please provide me with a written response that specifically addresses the irrigation water and the prairie dog infestation by July 23, 1990, so that we can respond appropriately to Mr. McKay.

For your information, I have enclosed a copy of a letter from the Colorado Division of Wildlife regarding a prairie dog seminar on August 8.

Very truly yours,

Mary Lynn Tucker
Assistant County Attorney
277-8959
